

NATIONAL TECHNICAL STANDARDS and GUIDELINES for MINE CLEARANCE OPERATIONS

Hashemite Kingdom of Jordan

Edition One

September 2006

Funded By the EC

Warning

This document is distributed for use by organizations intending to implement landmine clearance projects in Jordan. It is subject to change without notice and may not be referred to as an International Standard. Agencies are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation, should they wish to do so.

Document Ownership

This document is the property of the Government of Jordan. This document shall not be sold. Demining agencies that hold current accreditation in Jordan may reproduce sections of this National Technical Standards and Guidelines (NTSG) for training and reference purposes only. Other demining agencies wishing to apply for accreditation in Jordan are urged to read this document before completing the Desk Assessment Accreditation Form available on the National Committee for Demining and Rehabilitation (NCDR) website. This document may be viewed and or downloaded on the NCDR website: www.ncdr.org.jo
